Continuation of Disposition of Claims: Claims pending in the application are 1-6, 11-14, 16-19, 23-25, 30-36, 41-44, 47-50, 52-54, 59-65, 70-72, 74-76, 82, 83, 85-87 and 92-98.

## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities: In the specification: paragraph [0028], line 4, recites “write amplifier 116”, however, the write amplifier is reference number 114; paragraph [0033], line 5, recites “preamp circuit110”, however, the preamp circuit is reference number 102. Appropriate correction is required.

### ***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: “write enable signal (W)”, see paragraph [0029], line 1.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: “r/w” signal.

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-21, 23-25, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 recites the limitation "the read/write device" in lines 8 and 9-10. There is insufficient antecedent basis for this limitation in the claim. The examiner is not sure if the limitation is referring back to a read/write path or a data storage device.

Claims 17-21, 23-25 and 30 fall with claim 16.

***Allowable Subject Matter***

Claims 1-6, 11-14, 31-36, 41-44, 47-50, 52-54, 59-65, 70-72, 74-76, 82, 83, 85-87, and 92-98 are allowable over the prior art of record for the reasons given in the previous office action, mailed 07/19/2007.
